- Open communication channel via a member of the Affiliate Network Professional Council (ANPC)

Maintenance of Affiliation

In order to maintain status in the Affiliate Network, each Affiliate Association will meet the following criteria:

- Continue to meet all affiliation criteria outlined in the [prospective affiliate packet](#)
- Submit an [annual report](#) with current information about its leadership, membership, and activities.
- Pay an annual affiliation fee*.
- Send a representative to the Affiliate Assembly at least once every 3 years.
- Identify a Liaison responsible for communicating important information between TESOL and the Affiliate Association and completing annual requirements.

A member of the ANPC will be an affiliate's contact person along with the staff partner to provide a channel of communication when needed. An affiliate should feel free to inquire about anything related to their status or functioning as an affiliate to their ANPC contact person and the staff partner. Questions can always be sent to affiliates@tesol.org.

Any Affiliate association failing to meet the maintenance criteria outlined above for two consecutive years or conducting actions that conflict with TESOL's mission or values, will lose its status within the Affiliate Network.
