- Author, Culture Link: O Canada Workbook, Oxford University Press Canada, 2012

**Candidate's Statement:** What kind of leaders does the association need? Why are you a good candidate to choose them?

TESOL International needs transformational leaders to handle the many challenges and changes in English language teaching environments around the globe. Finding leaders with vision on important issues such as equity, building community, and advocacy is important for continued growth of TESOL's membership. With my background and network with the Affiliate Network, I believe I can help find global leaders who support TESOL's strategic plan.
